Which production department function do you think was responsible for the following scenarios:

Scenarios	Production Function
Design and testing of the Starbucks latest non-dairy range?	
Ensures products are good quality?	
Ensures there is enough input for production and output for distribution?	

 Maintains and repairs the production line?	
 Making changes to the old iPhone 5 to the new iPhone 12?	
 Helps you with any problems you may have after buying the product?
