2.- Read & answer

The White Rhino

The white rhino is an endangered animal. It lives in the grasslands. It is called a "white rhino" but it's not white—it's gray! It's very big and heavy. It eats plants. It can walk and run, but it can't swim or jump. Today there are only thirteen northern white rhinos in the entire world!

1. Where does the white rhino live? _____
2. Does it eat meat? _____
3. Can it jump? _____
4. Can it run? _____
