G THE REMAINDER

Sometimes numbers are not divided exactly by other numbers. A remainder may be left.

Example: 5 ÷ 2 The answer is 2 rem 1 (2 x 2 = 4; 5 - 4 = 1)
8 ÷ 3 The answer is 2 rem 2 (3 x 2 = 6; 8 - 6 = 2)

EXERCISE 12.7

Find the remainder in each of these.

(1) 3 ÷ 2 = 1R1 **(2)** 5 ÷ 3 = **(3)** 7 ÷ 2 =

(4) 7 ÷ 4 = **(5)** 8 ÷ 5 = **(6)** 10 ÷ 4 =

(7) 15 ÷ 4 = **(8)** 13 ÷ 7 = **(9)** 18 ÷ 5 =

(10) 20 ÷ 8 = **(11)** 21 ÷ 4 = **(12)** 24 ÷ 7 =
