Read a text about **Robobees** . Then, **Choose the correct answer:**

Robobees

Scientists have invented tiny flying robots called 'robobees'. Scientists hope that, in the future, robobees will be able to do many things. Just like real bees, robobees will carry pollen (yellow powder) from flower to flower on farms. The flowers need the pollen so that fruit and vegetables can grow. Robobees will also fly through tiny holes in dangerous places, taking photographs for scientists. And they will help find people who are trapped in fallen buildings.

1. The text talks about:

- a. The buildings
- b. The flowers
- c. A robot

2. The Robobee will be able to:

- a. Swim in the ocean
- b. Carry pollen from one flower to another.
- c. Will hide the people.

3. Why does the flower need the pollen?

- a. To drink water
- b. So fruit can grow
- c. To fly very fast

4. Why they need the Robobees to fly through the holes?

- a. Fall the building
- b. Trapping the people
- c. Finding the people
