BESUT : "Grandpa" bicycles used to be a popular mode of transport on	e.g. in
the past. We are making a comeback here after a group of cycling	(a)
enthusiasts formed an club to relieve the good old days. The antique	(b)
bicycles are mostly sourced and bought from villagers in Kelantan but	(c)
Terengganu. Some of the spare parts are difficulty to get locally. Due to	(d)
this, they have to be ordered to abroad. Antique brands like Raleigh,	(e)
New Hudson, Hercules or Robinhood have been procured and	(f)
refurbished by thirty members of the club. The members will be cycling	(g)
to a nearby Jerteh town. The purpose of the activity is to promotes	(h)
good health by cycling. The members vows to cycle several kilometres	(i)
daily. Besides good health, the move can also help to minimising the	(j)
usage of cars and motorcycles on the road.
