PERCENTAGES

How do you calculate percentages? If you got 14 out of 20 on a test, what percent would that be?

Score on test x 100 ÷ Total Marks = Percentage

14 x 100 ÷ 20 = 70%

Using your calculator, determine the percentage of each of the following…

1) 12 out of 20 = _60_%

12 x 100 ÷ 20 = 60

2) 25 out of 50 = _____%

3) 60 out of 75 = _____%

4) 10 out of 90 = _____%

5) 6 out of 30 = _____%

6) 94 out of 100 = _____%

7) 3 out of 5 = _____%

8) 25 out of 125 = _____%

9) 8 out of 160 = _____%

10) 36 out of 120 = _____%

11) 72 out of 300 = _____%

12) 52 out of 52 = _____%
