

World Environment Day 2021

Activity 1: Discuss some simple facts about World Environment Day and answer the questions.

World Environment Day is celebrated June 5 and it was instituted by the United Nations to stimulate worldwide awareness of the environment.

World Environment Day 2021 iconic activities are hosted by Pakistan.

The theme of World Environment Day 2021 is Ecosystem Restoration.

Ecosystem Restoration can happen by actively planting trees or by removing pressures on the ecosystem by protecting environment and reducing the increasing level of pollution.

Activity 2: Discuss The Three R's: Recycle, Reuse and Reduce.

Recycle: We should not throw cans, bottles and newspapers into landfills. These items can be recycled. Don't throw those shoe boxes away -- they can become toy dioramas or doll houses.

Reuse: We don't always need a new piece of paper or a new t-shirt. We can try to reuse what we already have. We can help keep trash out of the landfills. How can a piece of paper be reused? Example: We can use the comics to use as wrapping paper, print the templates on the blank/clean side of junk mail or other discarded paper material. How can a T-shirt be reused? - many pieces of fabric from T-shirts can make a great quilt!

Reduce: Every home can reduce the amount of waste/garbage it produces and the landfills would last years longer. Composting is one way of reducing.

Draw a line connecting the 3 Rs to their correct definitions.

REUSE means To change an object into a completely new item

REDUCE means To make use of the same object over and over

RECYCLE means To use less of an item so not to wast it

Write the names next to pictures.

Plastic bag	cartons	Cardboard box	Plastic bottles
Glass jars	Paper bag	Aluminium cans	

Complete the sentences using the words from the previous exercise

1. When I was a child I made a house to play in. To make my house I used a big _____.
2. How many _____ of milk have we got?
3. I'm making homemade jam and I need _____.
4. We buy more than 50 billion _____ of water every year.
5. Most supermarkets in the USA give you a _____ to put your shopping in.
6. Used _____ are recycled and returned to store shelves as new cans.
7. _____ cause the death of many marine animals when they are mistaken for food.

**Activity 3: Find out what you can do to help the planet in this fun and positive song
about Earth!**

Listen to the song and complete.

Do you know the name of our planet? Planet _____

How many planet Earth do we have? Only _____

<https://youtu.be/IJToF8D9bdU>

Let's see what we can do to save the _____ for me and you

E _____

A _____

R _____

T _____

H _____

Planet Earth is a _____ place.
