

EXAM PRACTICE

Plants

1. Drag and drop the parts of the plant.

leaves roots flower stem

2. Match the parts of the plant to their function.

- | | |
|---|----------|
| • Make food for the plant. | • Flower |
| • Absorb water and nutrients. | • Stem |
| • Transport water and nutrients around the plant. | • Leaves |
| • Make seeds for the plant. | • Roots |

3. Drag and drop to complete the process of photosynthesis.

 +
  +
  +
 

=

 and **PLANT FOOD**

OXYGEN	CARBON DIOXIDE	WATER	MINERALS	SUNLIGHT
--------	-------------------	-------	----------	----------

4. Read and choose True or false.

Plants make their own food.

TRUE

FALSE

Plants are herbivores, they eat other plants.

TRUE

FALSE

Plants absorb oxygen to make plant food.

TRUE

FALSE

Seeds are like baby plants.

TRUE

FALSE

The leaves absorb minerals and water from the soil.

TRUE

FALSE

The roots take in sunlight.

TRUE

FALSE

The leaves absorb sunlight and make plant food.

TRUE

FALSE

The stem is like a road to transport nutrients around the plant.

TRUE

FALSE
