Come With Us

There's no need _____ lonely

I know where you belong, yeah, follow me

You only have _____ me

No matter who you are or what you see

You're a bird in a cage, _____ the day

_____ the morning

But don't be afraid, we're coming your way

Wait for the _____

Come with us

If you give us all your money

We'll give you your dreams

It's all soft focus

You'll never want _____ away

Once you release control

You'll be lost in a fantasy

'Til your soul is lost

You'll be longing _____

Longing _____ with us

Find out what you can be (can be, can be)

Sign away your life to us

And then throw yourself to the falling

You don't _____ to be afraid

C'mon, this is the calling

Come with us

In a hazy frame of mind, you'll believe this stuff

It's all soft focus

You'll never want to turn away

Under electric stars

You'll be _____ your fantasy

And from dawn to dusk

You'll _____ to run

Longing to come with us

Come with us

If you give us all your _____

We'll give you your dreams

And from dawn to dusk

Come away with me

Come away with me

C'mon, come with us

In a hazy frame of mind, you'll _____ this stuff

It's all soft focus

And you'll never want to turn away

Under electric stars

'til your soul is lost

You'll be longing to run
