Eco-Friendly Fashion

Anna: I like your outfit. That coat is really trendy.
Zoey: It's made of recycled wool, and the buttons are made of glass.
Anna: Is it warm?
Zoey: Very, and extremely light. And the blouse I'm wearing is made of silk.
Anna: Cool! How about the skirt?
Zoey: It's made from organic cotton.
Anna: Your boots are awesome! Are they alligator leather?
Zoey: No, they're actually made of rubber from the Amazon,
but they really look like leather, don't they?
Anna: Don't tell me your purse is made of a natural material too.
Zoey: Actually it's made from bamboo fiber, and
my bracelet is made of coconut shell.
Anna: Wow! You're the most eco-friendly person I know.
