Mathematics Classwork

Estimation Sums and Difference

Estimate. Then add or subtract.

Example: 34 + 56 = 30 + 60 = 90

1. Mary has 25 apples. She gave Tom 12 apples. How many apples does she have left?

2. Ben has 33 strawberries. He bought 65 more strawberries. How many strawberries does he have altogether?

3. Sam found 45 keys on Wednesday and 51 keys on Thursday. How many keys did Sam find?

4. Sally had 67 pairs of shoes. She gave away 22 pairs of shoes. How many pairs of shoes does she have left?

5. Josh threw 23 rocks in the morning and 16 rocks in the evening. How many rocks did he throw?
