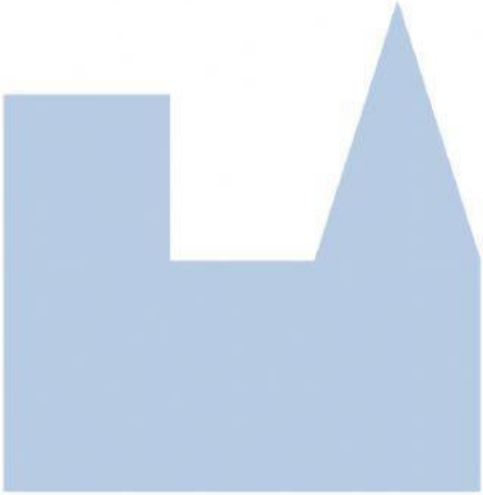
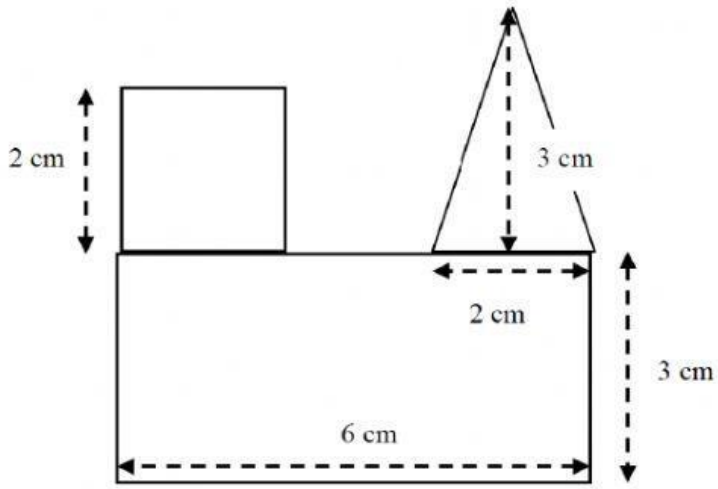
Grade 6 – Area of compound shape

1. The coloured shape is a typical house structure in a town in Europe. It consists of a square, a rectangle and a triangle, as shown to its right..
   Work out the area of the original structure.





Area of the square = ☐ cm^2

Area of the rectangle = ☐ cm^2

Area of the triangle = ☐ cm^2

ÁREA ☐ + ÁREA ☐ + ÁREA △ = ☐ cm^2
