```
#Program to check if it is morning time
hour = input("Please enter the hour of the day(24-hour clock):")
hour = int(hour)
if hour < 12:
   print("The time ", hour, "is am")
else:
   print("The time", hour, "is pm")
```

What are your results? If the hour is .....

18

Your answer:

5
