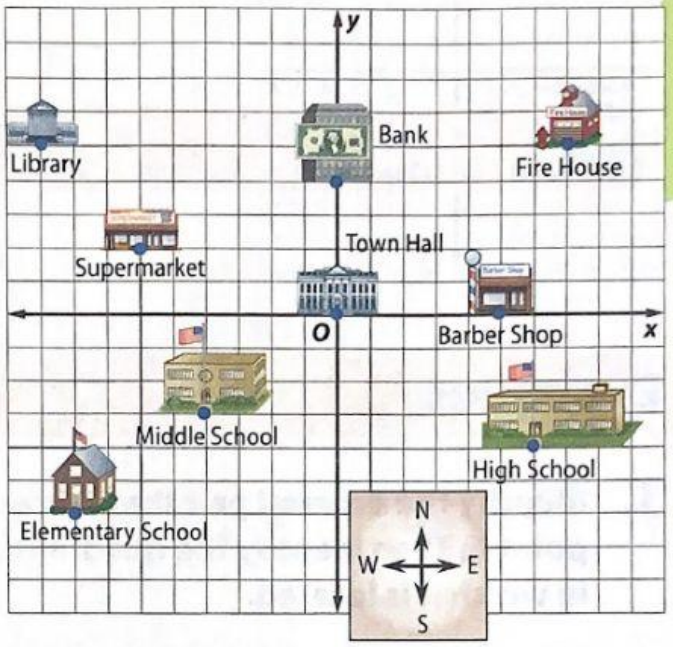
Watch

The map shows the layout of a small town. The locations of buildings are described in respect to the town hall. Each unit on the grid represents one block. How can we use numbers and directions to describe these locations?



1. Describe the location of the barber shop in relation to the town hall.

_____

_____

_____

2. What building is located 7 blocks east and 5 blocks north of the town hall?

_____

3. Violeta is at the library. Describe how many blocks and in what direction she should travel to get to the supermarket. _____

4. How can we use numbers and directions to describe locations on a map? _____
