A Garden Club

Becca's favorite place at school is the garden. She uses all her senses there. She loves the scent of the fragrant roses. She loves the sight of the towering sunflowers. She loves the taste of sweet strawberries. She loves to feel the bark of the maple tree. She hears the sound of the bubbling water. She wants more students to see the garden. She and her teacher form a Garden Club. A lot of students come to the meeting. Becca shows them how to enjoy the garden through all their senses. For the rest of the school year, they happily work together to keep the garden growing strong.
