GAP FILL

From https://breakingnewsenglish.com/2309/230928-spotify-ai-music.html

Artificial intelligence websites such as ChatGPT and Google's Bard are (1) _____ than a year old, but they have been asking many questions. One question is (2) _____ music and art produced by AI is real music and art. Daniel Ek, the boss of the music streaming site Spotify, has (3) _____ this question. He said there are many uses of AI for making music that are OK. He told the BBC that Spotify has no (4) _____ to ban all music created by artificial intelligence. This includes the auto-tune (5) _____ that helps singers correct their pitch and can add vocal (6) _____ to a singer's voice. Mr Ek said auto-tunes (7) _____ music. One use of AI Mr Ek did not like was software for mimicking (8) _____) the voice of an artist.

Daniel Ek said using AI in music will be (9) _____ for "many, many years". He said the biggest problem is when AI copies the voice of other singers. Spotify (10) _____ one song created by the AI platform Ghostwriter. The software copied the (11) _____ of the singers Drake, and The Weeknd. The song was even submitted for a Grammy music (12) _____, but it was rejected. Neither Drake nor The Weeknd knew about the song. Mr Ek highlighted how serious the problem of (13) _____ singers' voices is. He said: "You can imagine someone uploading a song, claiming to be Madonna, (14) _____ if they're not." He said it will be difficult to tell if a song is "sung" by a (15) _____ or a human. He added that the future of music production is going to be "(16) _____".
