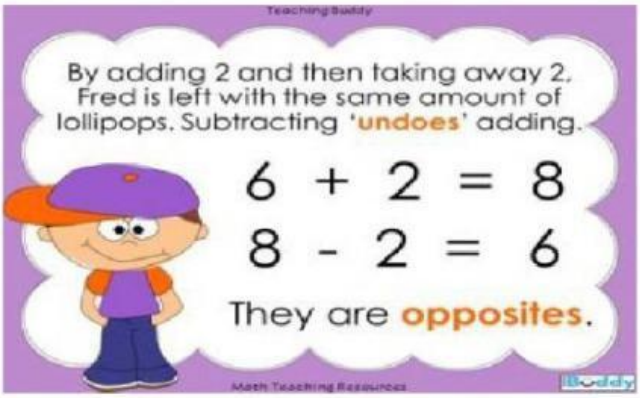
Mathematics

Adding and subtracting - **REVERSE METHOD**

There is a reverse relationship between addition and subtraction.

For example, 3 + 7 = 10. we can reverse this sum and take away using the same numbers.

3 + 7 = 10. 3 = 7 - 10. 10 - 7 = 3



Complete the sums below

since 1 + 3 = 4
then 4 - 1 = ☐

since 3 + 5 = 8
then 8 - 3 = ☐

since 7 + 7 = 14
then 14 - 7 = ☐

since 9 + 2 = 11
then 11 - 9 = ☐

since 2 + 3 = 5
then 5 - 2 = ☐

since 3 + 9 = 12
then 12 - 3 = ☐
