Quest 5 Workbook task 6:5 and 6:7

Dear Anna,
It is very hard to be away from you and our two boys. Life as a gold digger is harder than I had thought. I get up at sunrise, work all day long and go to bed at sunset. On Sundays I go to church.

I use a pick and a shovel to get the rocks loose from the riverbed. Then I wash the rocks in the pan. My hands and feet have blisters, my back is hurting, my arms are tired, but I still have hope. I found some gold nuggets, but they were so small that I just got a few dollars.

Every week I meet men who have found gold, but I also meet many who have spent all of their money. Some men lose their money playing poker.

In the beginning I wanted you to come here. But this is no life for women and children, it's not safe. I miss you all so much, Anna.

See you in six months.
Your George.
