| A study into children's television viewing habits reveals that children whose parents have a high level of (1)_____tend to watch less television than children from less educated family (2)_____. The report also suggests that a high rate of TV watching among children in poorer (3)_____areas and in the provinces, compared to those living in large urban centre, is often due to (4)_____and a lack of other kinds of (5)_____in the area. Disco, cinema, theatre and sports (6)_____offer children in urban centre a wider range of pastimes, which leads to far (7)_____hours being spent in front of the box. (8)_____, comedies and adventure films are children's (9)_____programmes, while twenty percent of children said they preferred (10)_____films and thrillers. | 1. EDUCATE<br>2. BACK<br>3. SUBURB<br>4.
