Let's go! Let's go! Let's go!

On vacation, vacation…

Passport
line
takeoff
boarding
vacation
check in
luggage
seat belt
security
fly

IV SERIES: (10points) Reading comprehension: The channel Tunnel

Read the information and circle true or false.

The tunnel has made traveling easier, too. Trains run under the sea 24 hours a day. You can still cross when the sea is rough and the ferries have to stay in the port. There's no bad weather underground. Millions of people and millions of tons of goods have traveled through the Channel Tunnel. They started digging the tunnel in 1988. They started at both ends, in England and France. It was an enormous project. Thirteen thousand people worked for three years. They used huge machines. The two teams raced to see who could reach the middle first.

LIVEWORKSHEETS

1. The tunnel was made to fly.	True	False
2. Cars run under the sea 24 hours a day.	True	False
3. There's not bad weather underground.	True	False
4. People started digging the tunnel in 1888	True	False
