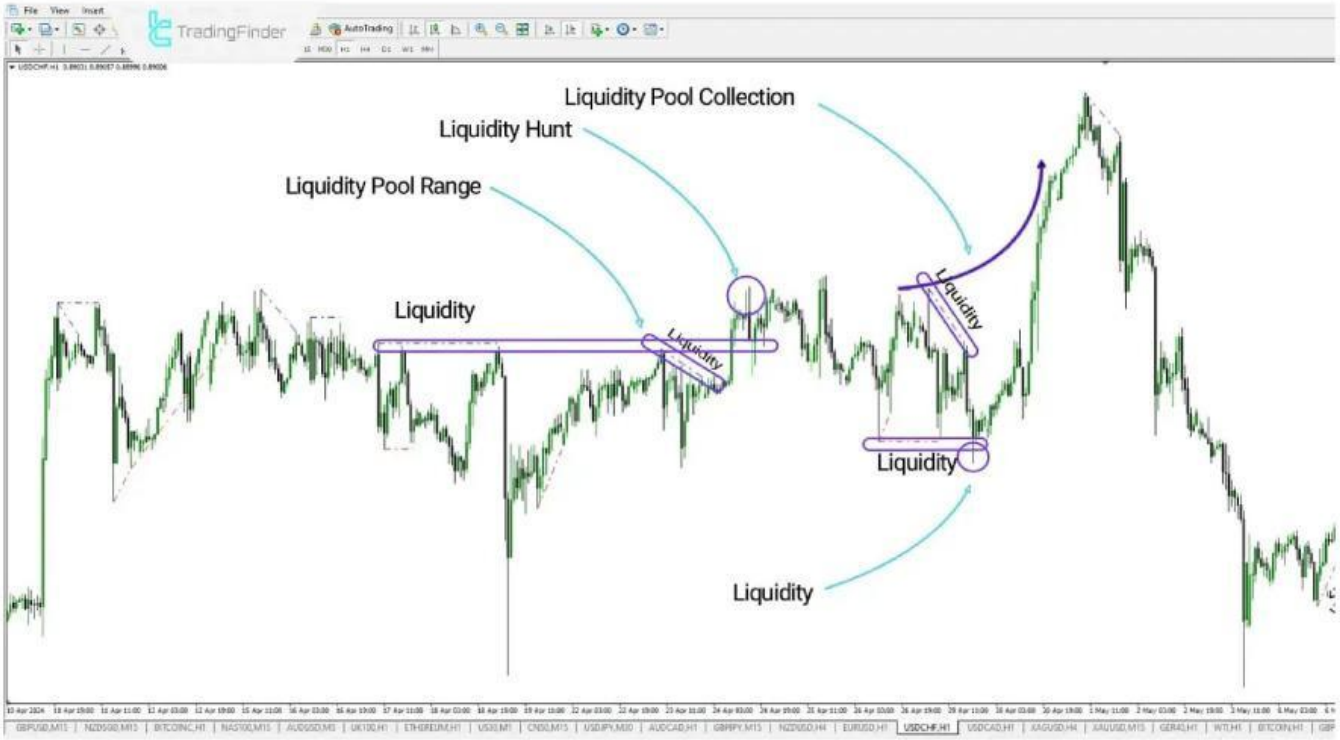
Stop Hunt High



1-hour chart of USD/CHF (U.S. Dollar/Swiss Franc)

LIVEWORKSHEETS

In the **USD/CHF currency** pair chart, after forming a **liquidity pool range** with **equal highs**, the market moved towards the **liquidity pool (LF)**.

Following theliquidity hunt up to the **0.91525 level**, the market temporarily corrected and, after gathering the remaining liquidity at the price lows, reached itslowest point at **0.90884**. However, after this correction, the market began its upward trend powerfully, with sharp movements.

Stop Hunt Low

15-minute chart of Gold (XAUUSD)

In the **15-minute (XAUUSD)** chart, the market first broke through the **price high of 2358.50** with a sharp **upward move**, capturing the necessary liquidity.

The price then retraced to the **2354.40 level**, which acted as asupport point. At this level, the market gathered liquidity at the low and regained strength, climbing to a new high of **2387.40**.

This newlevel acted as a strong resistance, and the market began its downward trend from this point. These changes reflect the market's precise behavior in hunting liquidity and utilizing support and resistance levels.
