Guess the word by description

Given words are here

- Button
- Layout
- Flow (User Flow)
- Update
- Feedback
- Prototype
- Wireframe
- Dropdown
- Placeholder

- A new version or change made to a design, app, or website.
- The way elements (text, images, buttons, etc.) are arranged on a page or screen.
- A small clickable area on a screen.
- A menu that opens when you click it, showing more options.
- A simple version of a product used for testing ideas. It looks like a real app, but it doesn't fully work yet.
- The path a user takes to complete a task in an app or website.
- A basic outline or sketch of a web page or app screen, showing what goes where (no colors or images).
- Temporary text shown in a form field to show what users should enter.
- Information about how a user reacts to a design — what they like, don't like, or don't understand.
