CIMORT SUMAS DE FRACCIONES

Realiza las siguientes sumas de fracciones. ***B**

Utiliza tu cuaderno para que realices las factorizaciones y las operaciones necesarias.

$$\frac{1}{5} + \frac{4}{3} + \frac{1}{2} = \frac{\square}{\square} + \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} = \square\,\frac{\square}{\square}$$

$$\frac{2}{3} + \frac{1}{9} + \frac{3}{5} = \frac{\square}{\square} + \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} = \square\,\frac{\square}{\square}$$

$$\frac{4}{7} + \frac{2}{4} + \frac{1}{8} = \frac{\square}{\square} + \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} = \square\,\frac{\square}{\square}$$

$$\frac{3}{2} + \frac{1}{5} + \frac{1}{10} = \frac{\square}{\square} + \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square} = \square\,\frac{\square}{\square}$$

$$\frac{3}{8} + \frac{1}{4} + \frac{3}{16} = \frac{\square}{\square} + \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square}$$
