Mathematical Concepts

Skill: Mean, Median, Mode, Range

Use the chart to answer the questions below.

DAILY TEMPERATURES IN NASSAU						
84°	84°	87°	83°	64°	84°	87°

1. Arrange the numbers on the chart in ascending order. Write the answers in the empty boxes below.

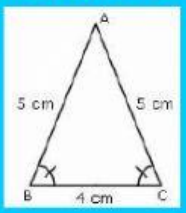
DAILY TEMPERATURES IN NASSAU						

2. Using the completed data from number 1, write down the following:
   a. The number that is the median _____
   b. The range _____
   c. The mode _____
   d. The outlier _____

3. From the number **649 528 901** write down the following
   a. the digits that are in the millions period. _____
   b. the value of the digit that is in the thousands place. _____

4. Write the letter of the diagram that is showing a isosceles triangle. _____

A.



B.
