Magic Quest!

I played a fantasy video game called Magic Quest at the weekend. There were magic objects. They weren't easy to catch! There were good characters and dangerous characters. There were scary witches, magic fairies and more!

I was a unicorn in the game. There was a magic wand in a tower, a magic key in a forest, a magic crown on a rock and a magic ring. The magic ring was my favourite part. It was in the water, under a bridge. There was an angry mermaid with a sword and a funny troll was there too. The troll helped me. There weren't any bad parts in the game. It was fantastic!
