Teenage Dreams

_____ are you in your hoodie blue

_____ do you do _____ the lights go low

Got secrets like I do boy I know

We're rockets in a star-filled zoo

_____ do you like when no one's around

Are you dancing to the silent sound

Dreams tangled up we won't be bound

Our paper planes won't hit the ground

_____ is your friend in this crazy ride

_____ does he live when the waves get high

_____ are your parents home or gone

Together we'll find where we belong

_____ makes you sad and happy too

A game we play our hearts see through

Underneath the night skies bloom

We light up this teenage room

Who _____ your friend in this crazy ride

Where _____ he live when the waves get high

When _____ your parents home or gone

Together we'll find where we belong

No more questions we'll be free

We'll write our own symphony

Life's a movie we're the lead

Chasing dreams is all we need
