"MAI'S ECO-CLUB CHALLENGE"

Mai is a 6th-grade student. She lives only 10 minutes from her school. She is a member of the Eco-Club and usually walks to school with her friend Linh because they want to protect the environment. They have an Eco-Club meeting every Wednesday afternoon. After school, the club checks all the classrooms to see if any lights or fans are still on. Last week, they found 13 lights left on in eight classrooms. To help, they made colorful posters that said, "Turn it off!" and asked

teachers to remind students. Yesterday, when they checked again, they saw only 5 lights left on.

On Saturday, the club visited the town park to pick up litter. In two hours, they collected 12 bags of rubbish. The best team filled 4 bags. It was hard work, but everyone felt proud. Today it is raining, so the club is working inside. They are writing polite emails to the principal to ask for recycling bins near the canteen.

Mai keeps a "green diary." She writes about her habits: shorter showers, using a reusable water bottle, and watching less TV—just 30 minutes of cartoons on Fridays. She used to take the bus on rainy days, but now she wears a raincoat and still walks. Their teacher, Mr. Long, says the next goal is to plant 20 trees next month. Mai believes small actions can make a big change.
