Historical Context

Women in the Workforce During World War I

- During World War I, millions of men went to fight, leaving gaps in the workforce.
- Women stepped into traditionally male-dominated jobs such as factory work, driving, and nursing.

Post-War Social Shifts and Recognition

- After the war ended in 1918 -> women were forced out of their wartime jobs
- But the experience had already shifted public perceptions
- Women had proven their capability-> demands for equal political rights, including suffrage.

Cultural Shifts: The Flapper Movement

- Symbol of rebellion against conventional norms.
- New fashions, short hairstyles, and a carefree attitude

FEMINISM

LIVEWORKSHEETS

SUFFRAGE

- Refers to the right to vote in public elections
- Empowers individuals by giving them a voice in government decisions
- Universal suffrage: All adult citizens, regardless of gender, race, or social status
- Restricted suffrage: Limited by factors such as gender, property ownership, race, or literacy
- Women's suffrage, activists campaigned through protests, lobbying, and civil disobedience.
