1ST CONDITIONAL PRACTICE

I. Put the verb in the blanket into the corect form (First Conditional)

1. If the QA team …… (find) a major bug, the release …… (be) delayed.
2. If the server load …… (exceed) 90%, the system …… (send) an automatic alert.
3. We …… (lose) valuable data if we …… (not back up) the files regularly.
4. If the user …… (click) "Accept," the software …… (begin) installation.
5. The project manager …… (approve) the budget if the development team …… (submit) a detailed proposal.
6. If the new update …… (stabilize) the platform, customer satisfaction …… (improve).
7. The website …… (not work) properly unless the browser …… (support) the latest CSS standards.
8. If the network traffic …… (increase), the IT team…… (need) to upgrade the bandwidth.
9. If you …… (forget) your password, the system …… (email) you a reset link.
10. The company …… (face) a security risk unless they …… (update) the firewalls immediately.

II. Join two parts to make a meaningful sentence using First Conditional and **Modals và Imperative instead of will**

Kết hợp hai vế câu bằng cách sử dụng cấu trúc **First Conditional** và thay thế *will* bằng các động từ khuyết thiếu (**may, might, can, could, should**) hoặc **Mệnh lệnh (Imperative)**.

STT	If-Clause)	Result/Instruction)	Ngữ pháp yêu cầu
11	The application freezes.	You restart your device.	Imperative
12	The data is encrypted.	Nobody can read it without the key.	Can
13	We miss the deadline.	We might lose the client contract.	Might
14	The customer reports a vulnerability.	The development team should prioritize the patch.	Should
15	You see a "404 Error."	Check the URL immediately.	Imperative
16	The battery is low.	The laptop may shut down unexpectedly.	May
17	The old software is not compatible.	We could look for an open-source alternative.	Could
18	The system detects unauthorized access.	It should notify the administrator.	Should
19	You need assistance.	Contact the help desk.	Imperative
20	The power goes out during the update.	The operating system might get corrupted.	Might

For example:

11. If the application freezes, ***restart your device****.*
