Hi Harry,

Are you free this weekend? If you are then would you like to come to my birthday party this Saturday? It will be held at my house. It's quite easy **(1)** get here by bus because it stops right **(2)** front of my house. From the city centre where your house is, you just need to take bus number 56 and you will be here in 15 minutes. My house is also very close to the Queen Football Stadium. **(3)** the weather is good, then we can go there to watch a match after the party. What do you think? I also invited Robert and Frank to come this weekend too. I think we will have lots of fun together. You can also meet my new pet! My parents gave me a parrot and I named him Rainbow. He **(4)** very sweet and smart. He can even talk. He is also very naughty! Sometimes, he steals fruit and biscuits from our kitchen table. I think that you will like him very **(5)** Anyway, I'm really looking forward to seeing you this Saturday.

See you,

Peter
