..... did you do at the beach ?	Soon we arrived at a sandy beach to relax. We walked along the sun kissed shore and swam in the emerald sea. Later we sat in the shade of a coconut tree, sitting in the shadows, and smelling the salty breeze.
..... did you get home? ..... caused the puncture ? ..... .is the characteristic of a good friend ?	At 5p.m., my friend and I cycled home. Alas, my friend had a punctured tyre while cycling. I got down and helped. Broken glass had punctured my friends bicycle tyre. Soon we were on our way again to the village The clock struck 8 p.m. when we arrived home. I was very thankful for my friend had helped me change the tube. The lesson I learnt was good friends stick with us in good times and bad times..
