Phases of Matter

Use these links to help complete the table below.

Property	Solids	Liquids	Gases
Mass			
Shape			
Volume			
Compressibility			
Particle motion			
Arrangement of particles (Diagram)			
Interparticle Force			

LIVEWORKSHEETS

You smell a . Even if you were not close to shoes you would smell them because a .

It has no and can in all directions.

Rain is a .

When it hits a surface it .

If it falls into a container, it will the of it.

Wind is a .

Air is a

Like water gas can

Sand is a .

It will not move on its own and in a vacuum (no air) will have a shape.
