Chemistry

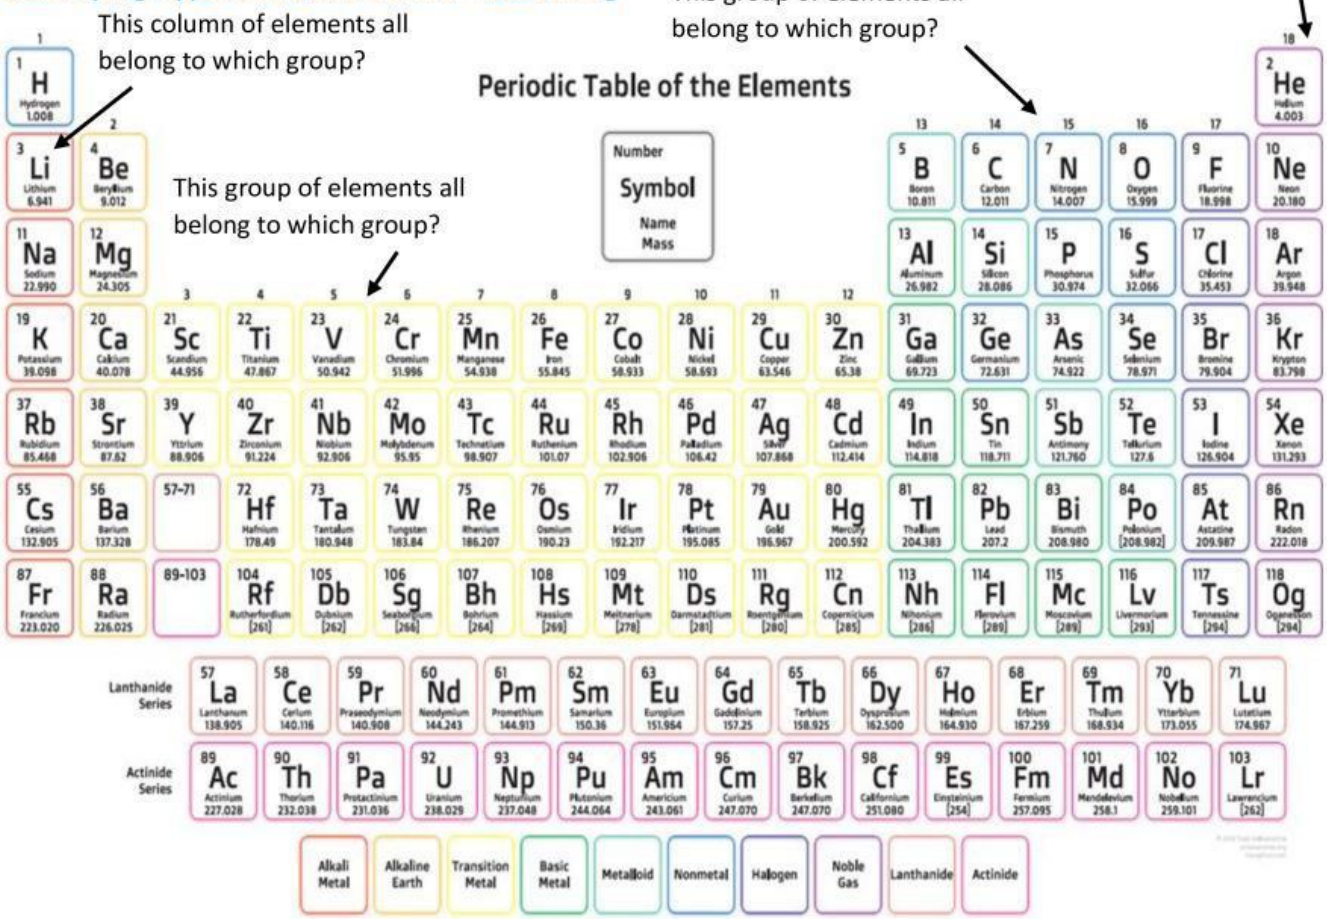
This column of elements all belong to which group?

Identifying Type of Element with Reasoning

This column of elements all belong to which group?

This group of elements all belong to which group?

This group of elements all belong to which group?



Elements	Atomic Number	Atomic Symbol	Group	Metal/Non-metal/ Metalloid
Helium				
Calcium				
Potassium				
Phosphorus				
Neon				
Carbon				

Which word is the odd one out (doesn't belong in the group)?

Explain your choice.

1	2	3
Sulphur	Silver	Potassium
Copper	Calcium	Lithium
Nitrogen	Mercury	Sodium
Oxygen	Sulphur	Arsenic

LIVEWORKSHEETS

4	5	6
Hydrogen	Xenon	Gold
Helium	Krypton	Platinum
Lithium	Iodine	Silver
Lead	Helium	Carbon
