Numbers: Write the numbers in letters

Remember: When writing large numbers, ***divide*** them ***in groups of three. For every 3rd number from the right, you need to write "hundred", IF IT'S NOT ZERO. 1st point (←) = "thousand", 2nd = million, 3rd = billion …***

Example: 345.298.678.123 =

THREE HUNDRED forty five ***billion*** **TWO HUNDRED** ninety eight ***million***

SIX HUNDRED seventy eight ***thousand*** **ONE HUNDRED** twenty three.
