Music

The Percussion Family

Percussion instrument must be hit, shaken or scrape to produce a sounds.
Percussion instrument are devided into two groups pitched percussion instruments can play a melody. Examples are the pianoxylophone, bell, drums and the xylophone.

Non-pitched percussion instruments can play beats and rythm. Example snare drum, bass drum, tom-tom drums and cymbals.

There are lots of percussion instruments like the triangle, the tambourine, maracas and claves.
