Summer Camp Plans

Hi, Ali,

How are you? I want to tell you about my plans for the summer holiday.

Every summer, many students join different kinds of camps. Some go to sports camps where they play football and basketball.

Others prefer science camps to do experiments and learn about space.

There are also art camps where kids draw and paint.

Last summer, I went to a sports camp near the beach. I played football every day and made new friends.

This summer, I am going to join a science camp. We are going to do fun experiments and learn about robots. My brother is going to join an art camp

because he loves to draw and paint.

Are you going to join a summer camp this year?

Write back soon,
Sara.
