Chocolate whispers

Order the instructions

	Finally, each group eats the smarties
	First, get into teams of 8 and line up one behind the other, facing the game leader.
	The leader: give a new instruction to the new person at the front of the line
	The leader: call the first person in each line to come near and whisper a number of smarties e.g. 'two green smarties'.
	The last player in the line: go to your plate of smarties and take 'two green smarties' and run to the game leader to show them. If they are correct, leave the smarties on the plate at the front. If they are wrong, take them back to the plate with smarties. Then go to the front of the line.
	The first person in each line: go back and whisper to the next player of the team. Players in the team: pass the message down the line.
