ORTEGA Y GASSET

Science: Energy

A. Choose the correct answer for each question.

1. Energy is the capacity to cause _____ or do work.

2. Energy can be _____ from one form to another.

3. Thermal energy comes from the movement of _____ and molecules.

4. Gravitational energy is stored in an object's _____.

5. Electrical energy is carried by _____.

B. Write the correct letter.

1. What is energy?

a) A type of matter
b) The capacity to cause change or do work
c) Everything that occupies space
d) Everything around us

2. What happens to energy?

a) It disappears
b) It changes form
c) It sleeps
d) It breaks

3. Which is chemical energy?

a) Lightning
b) A battery
c) A bell
d) A fan

4. Which shows gravitational energy?

a) A book on a high shelf
b) A ball on the ground
c) A lamp
d) Water in a glass

5. What produces sound energy?

a) Light
b) Heat
c) Vibrations
d) Water
