COLD ADVENTURES

Have you 1 dreamt of seeing polar bears in the Arctic or penguins in the Antarctic? Most of us 2 never wanted to go places like that because they're too cold. But fifteen-year-old Jade Hameister 3 not have the same ambitions as the rest of us. She's been interested in these extreme environments 4 she was very young. For years, she's 5 aiming to become the youngest person to reach both the North and South Poles and to cross Greenland. She's 6 completed the first part of the challenge: skiing 150 km to the North Pole. That 7 last year, and amazingly, the minus-forty-degree temperatures didn't put her off. She's just started her second journey, and 8 currently skiing across Greenland, a distance of 540 km. Good luck, Jade!
