My school is a large and beautiful place. It has a clean environment and many green trees. The classrooms are spacious, bright, and comfortable. The teachers are friendly, helpful, and patient. They always encourage students to be responsible and creative.

The library is quiet and organized. It contains many interesting books and useful resources. The science laboratory is modern and well-equipped. Students often conduct exciting experiments there.

Our principal is a wise and dedicated leader. She supports many educational programs and innovative activities. The school also has a large field where students can enjoy various sports. During competitions, the students are enthusiastic, confident, and competitive.

Overall, my school provides a safe, positive, and inspiring learning environment.

TEXT 2

Read the text and circle 25 adjectives!

Last month, our class went on an amazing trip to a national park. The weather was sunny and pleasant, making the journey very enjoyable. We travelled in a comfortable bus with large windows.

When we arrived, we saw a beautiful lake surrounded by green hills. The water was clear and calm. Many students took pictures of the scenic view. Near the lake, there was a small wooden bridge that looked very old but still strong.

Our guide was a friendly and knowledgeable person. He shared many interesting facts about the animals and plants in the park. We saw several rare birds and some colourful butterflies. The guide explained that it is important to protect these valuable species.

After lunch, we joined an exciting hiking activity. The trail was narrow and sometimes steep, but it was also safe. Everyone was careful during the hike. At the top of the hill, we enjoyed a spectacular view of the park.

At the end of the trip, we felt happy, tired, and grateful. It was a memorable experience that taught us many important lessons about nature and teamwork.
