27. Read the following sentences.

PM2.5 is very small dust in the air. It comes from cars, factories, and burning things. PM2.5 can make us sick if we breathe it. Wearing masks and planting trees can help reduce PM2.5 problems.

Which of the following sentences about PM2.5 is CORRECT?

1. Masks make PM2.5 worse.
2. PM2.5 is large and easy to see.
3. PM2.5 comes from clean sources.
4. PM2.5 can cause health problems.

28. Read the story.

Nathan is a primary student living in Chiang Rai, Thailand. Every morning, he rides his bike to school, passing green rice fields. He likes learning about the past and exploring old places. After school, he often visits local temples. Nathan wants to be a historian and share his love of history with others.

Why does Nathan love history?

1. Because history is easy for him.
2. Because he likes lovely green rice fields.
3. Because he enjoys visiting historical places.
4. Because history has many pictures in temples.
