Part 1: Reading Comprehension

Read the text below and answer the questions.

"Hello! My name is Budi. I am twelve years old. I live in a comfortable house in Surabaya with my parents and my younger sister, Rina. Being a student at SMP Negeri 1 is a wonderful experience for me. I really enjoy my school days because I get to meet many friends and learn new, interesting things every single day.

When I am not studying, I have a few hobbies that keep me active and happy. My absolute favorite hobby is playing football. I love the thrill of running across the field and working together as a team. Every Sunday morning, regardless of the weather, I make sure to go to the local park to play football with my close friends. We always have a great time competing and laughing together.

Aside from being active outdoors, I also enjoy quieter moments at home. I particularly like reading comic books, which take me on amazing adventures in my imagination. You can often find me relaxing in my bedroom, comfortably curled up with my favorite comic book series after a long day. Sometimes, my sister joins me, and we share stories together. Having these hobbies makes my life balanced and full of joy. I believe that having a good hobby is important for every student to stay motivated and happy in their daily life."
