It feels like a way back home
Where I tried to get away from the things that I know
And I want to share that so
The _____ love can come
And see how nothing really matters for too _____.

If you stay, _____
I won't let you go, now
And we can live the days of our _____
So, if you _____, now
I won't let you go, now
'Cause we can change the _____
If you stay with me tonight

Sometimes it gets so hard
To be who you really _____
And all this overthinking might not get you far
And It's getting late, I know
And maybe, maybe, maybe we should go
But let's stay tonight, and we can try to make it worth

'Cause If you stay, _____
I won't let you _____, now
And we can live the days of our _____
So, If you stay, now

I won't let you go, _____

'Cause we can change the _____
If you _____ with me tonight

If you stay, _____
I won't let you go, now
And we can live the days of our lives
'Cause, If you stay now
I won't let you go, now
And you can change the world
If you stay with me _____
