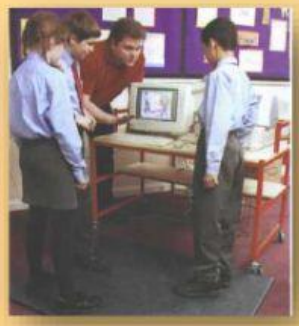
COMPUTER USES

LISTENING. You are going to listen to four people talking about how they use computers Listen and match.



1) Primary school teacher: I …	…to write assignment and e-mail my tutor
2) Open University student : I use it…	… make cards for my friends
3) Girl (Louise) aged 6: I…	…work with a program that encourages children to tell stories
4) Artist: I use it…	…to keep photographs of my work

Now listen again and choose the correct option

1) **Primary school teacher**: "The good / mood thing is that it works better if there are more children on the math / match. This encourages them to work together
2) **Open University student**: "I work full time so I study at / in home in the evenings and at the weekends. Some Saturdays there are tutorials I can attend in town but mostly I work alone.
3) **Louise**: "I use word / words and you go into clipart. Then these things come out on the screen. And you can click on any one like animals, two people with a heart, and a star / start and a hat.
4) **Artist**: "I've organized the paintings into / to themes and added a sound track so that each group of paintings is accompanied by music"
