## TASK 6. READ THE TEXT AND CHOOSE THE CORRECT ANSWER

### A DAY TRIP TO SILVER WATERFALL

Last weekend, four tenth-grade students – Liam, Sofia, Daniel, and Maya – went hiking in a national park famous for its deep valleys, ancient forests, and high waterfalls. They had already checked the weather forecast the evening before, and they set off early in the morning with backpacks, walking boots, and plenty of water.

After walking along a rocky mountain path for nearly two hours, the group stopped by a clear stream to rest and have a snack. Daniel realised his phone battery was almost dead, so he turned to Sofia and asked, "Do you mind if I borrow your portable charger for twenty minutes?" Sofia smiled and replied, "No problem at all. It's in the side pocket of my backpack – help yourself." Meanwhile, Liam noticed a narrow, steep trail leading off the main path toward the edge of a high cliff. "Is it all right if I climb up there to take a few photos of the valley?" he asked Maya, who had visited the park before. Maya shook her head immediately: "I'm afraid that's not a good idea. The rocks near the edge are wet and loose, and we shouldn't leave the marked trail." Liam agreed and stayed with the group, and soon they carried on walking until they finally reached Silver Waterfall. The view was spectacular: white water dropped over eighty metres into a bright blue mountain lake below. Before heading back to the bus stop in the afternoon, they collected all their rubbish so they wouldn't leave any plastic behind in nature. Even though everyone felt exhausted on the way home, they agreed it had been one of the best outdoor trips they had ever taken.
