Name:

# Lesson: Adding Integers using a Number Line

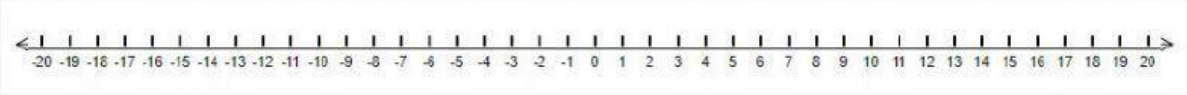
7.NS.1b

The first addend tells you where to start.

The second addend tells you where to go and in which direction.
positive = right
negative = left

Where you land is your answer!

**Directions:** Use the number line below to solve the following problems.



1. -7 + 9
2. -8 + (-1)
3. 12 + (-6)
4. -1 + 5
5. 20 + (-9)
6. -15 + 7
7. 12 + (-18)
8. -1 + 13 + (-22)
