Create/Solve Equation with One Variable Assessment

Point/Check your answer.

A + B = C use manipulatives or calculator to solve

Mary Beth and Danielle are planting tiger lilies at the flower shop.

A Mary Beth plants 3 tiger lilies.

B Danielle plants 2 tiger lilies.

C How many tiger lilies do they plant altogether?

Write the equation:

A		B	=	C
_____	_____	_____	_____	_____

1. To create the equation what number is A?

A=3 A=2 A=5

2. To create the equation what number is B?

B=3 B=2 B=5

3. To solve the equation what is the answer for C?

C=3 C=2 C=5
