Activity: Five High Fives

You want to find **five** classmates who are the same as you in some way.

First, complete these sentences with an idea that you think might be true for other people too.

1) I _____ every day.
2) I don't have _____
3) I can _____
4) Last year, I didn't _____
5) I have been to _____

Next, stand up. Find a classmate and read a sentence. If the sentence is true for him/her too, then he should respond with an addition or response phrase (So do I! Neither have I). Then give him/her a **high five**. If the sentence is not true for him/her, then you **can't** give a high five.

After you have given five high fives, you can sit down.
