AREA & PERIMETER

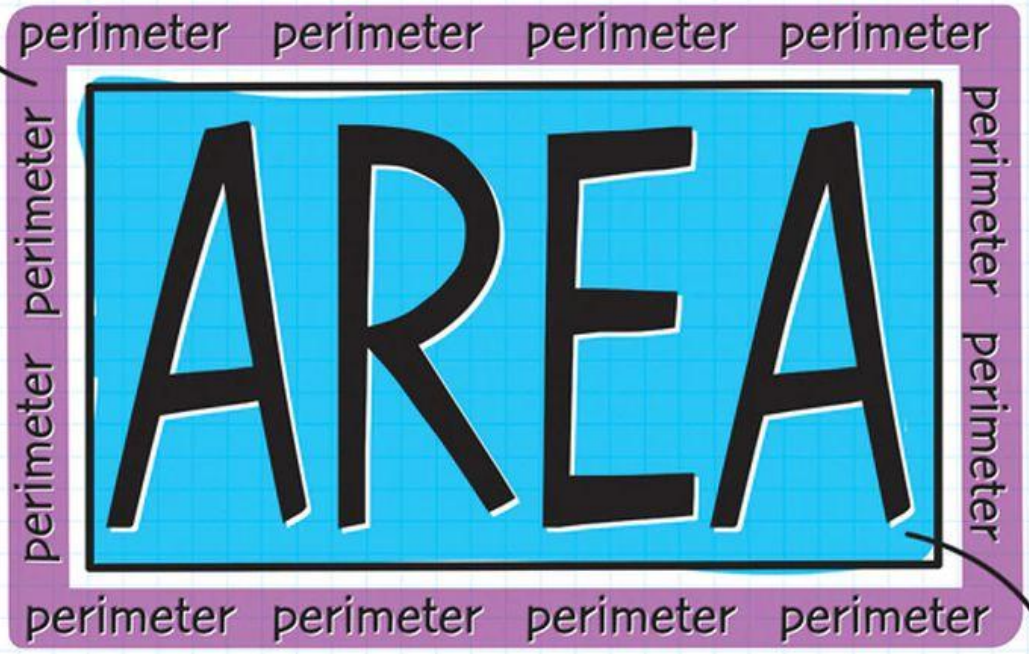
PERIMETER:

THE DISTANCE AROUND A SHAPE

$P = \text{side} + \text{side} + \text{side} + \text{side}$

$P = (2 \times l) + (2 \times w)$

ADD THE SIDES TOGETHER!



$A = l \times w$

COUNT THE SQUARES OR MULTIPLY THE SIDES!

AREA:

THE SPACE (MEASURED IN SQUARE UNITS) THAT A SHAPE COVERS
