CALCULATING NET WORTH

Net worth is the difference between your **assets** (what you own) and your **liabilities** (what you owe). Your net worth is your wealth.

To calculate the net worth, use the following formula: Assets – Liabilities = Net Worth. Make a balance sheet listing all your assets and all your liabilities.

ASSETS - LIABILITIES

= NET WORTH

BALANCE SHEET

Assets	Amount
Total Assets	$
Liabilities	Amount
Total Liabilities	$
Net Worth	$
